

## HB 2364 -- ARREST AND INCIDENT RECORDS

SPONSOR: Rhoads

This bill allows incident reports to remain closed if a criminal investigation occurs as a result of an incident until after a decision by the prosecuting attorney or Grand Jury whether to file charges, or for a year after the incident date, whichever is later. If the law enforcement agency believes the safety of a victim, witness, or individual cannot be reasonably insured, or if it believes a criminal investigation will be jeopardized, the agency, without time limitations, may file a motion to keep the records partially or completely closed.
